#### REGRET.

Thrust in my hand one summer day A bunch of crimson poppies lay Withered and warm, from a little hand That had gathered their bloom at love's

mand. On other things and thoughts intent. My absent gare upon them bent, Idly I turned them o'er and o'er. Then dropped their bloom upon the floor: But I've lived to weep for that summer day And the withered poppies I threw away,

Once on my ear a child's voice fell, It's loving tones I knew full well, And yet how strange, unheeded oft The words that pled so sweet and soft, Unleft the little head that pressed Around my neck, upon my breast. Now years have passed and borne away The words and lookes. words and looks of that dear day; My empty arms I stretch in vain, But the child will ne'er come back again.

Oh, words and tones of bygone years, How could ye fail on careless ears, Why unresponsive were ye met. Sweet loving deeds? Oh vain regret! Tears can not bring my flowers again, Nor words of love unheeded then, Only a look of sad surprise And disappointed childrah eyes.

So God's best gifts to us-each day So God's best gifts to us—each day
Dropped from His hand on life's rough way—
Often we pass unnoticed by,
They like the flowers unheaded ite,
And looking back in after years
With aching hearts through streaming tears
We stretch our longing arms in vanin
The treasures lost ne'er come again.

#### ANNA'S WAY.

#### Her "Iron Shoe," and the Use She Made of It.

The village of Offord was alive with curiosity that Sunday morning to see the bride that Bob Trench had brought home. He had woodd and won her in New York, and none of his family had seen her until her arrival among them the night before. "The whole thing," said Dr. Tanner, "done, no doubt, at a white heat, after the fashion of the Trench family."

The Trenches were a large-bodied. hot-blooded race, always making a talk in the county by sudden outbreaks into vice or into big, herole deeds of virtue.

The quiet, slow-going, Scotch-Irish Presbyterians who made up the community of the village of Offord found the virtuous Trenches quite as discomposing and uncomfortable to live with as the wicked ones. "Radical religion," said Dencon
